## Innovation For All Aspects Of Life

### MIMOS SHOWCASE AND DEMONSTRATION - INVENTIONS AND INNOVATIONS

● Instead of waiting for the future to dawn upon us, MIMOS has decided to bring us into the future with their latest and most innovative intellectual properties (IPs). MIMOS recently held a showcase and demonstration of their latest inventions and innovations at Technology Park Malaysia. Guests were amazed and were also anxious for said technologies to be released in the coming months and also near future.

To start off the event, President and Chief Executive Officer of MIMOS, Dato' Abdul Wahab Abdullah began with a very

informative presentation on the progress of MIMOS and their new endeavors. He also gave those who attended the event a brief rundown of their achievements compared to other organizations around the world. One of their proudest achievements is that currently their Nanoelectronic technologies are as good as Korea's which is ranked fourth worldwide.

The most interesting part of the day was during the showcase and demonstration. MIMOS was happy to share with everyone present their latest

innovations for bringing the future to agriculture, aquaculture, livestock, logistics, education, security and also cloud computing.

Each aspect of their innovative technology was made to help our country grow and develop into a country that has the technology to ease daily work activities. With MIMOS striving to help Malaysia rapidly advance into the future, it wouldn't be long till Malaysia and MIMOS reach the forefront of innovative technologies.
