Air of Elegance with MIMOS

Dressed in a combination of jet Black and Navy blue, the MIMOS Tetra R3-412D is designed for mobility and is suitable for anyone working on-the-go. No thicker than the average notepad, it is a state-of-the-art wonder of technology that you can tuck under your arm or slip discreetly onto a conference table, turning heads as you walk a corporate corridor.

Integrating the latest in Intel Mobile technology, the Tetra R3-412D features a powerful Intel Core 2 Duo processor that churns out raw processing power at a stunning 1.83 GHz. That let's you complete urgent work in a shorter period of time. Naturally; that's assisted with 1GB of DDR2 RAM, just to help you along no matter what operating system you choose to run. This stylish workhorse comes pre-loaded with either Microsoft Windows XP Professional or Windows Vista.

The Ideal Companion

Why strain your eyes, if you can rest them easily on a beautiful 14.1" WXGA LCD display that shows documents and presentations in brilliant, vivid colours. Whether you're playing slide shows of your family or making that crucial presentation at a meeting, the Tetra R3-412D is bound to impress. The size is also just perfect for almost anybody, since you won't have to squint to read like on an ultra-portable, or have to bear with the additional weight of a larger notebook. You'll even be able to load up some light games while waiting to catch your next flight.

Never again worry about where you're going to store files, since the Tetra R3-412D has a generously sized 80GB hard drive. That's plenty of space for you to store important work as well as any other supporting media you need for your business to prosper. There's also a DVD burner so that backups take minimal effort and time, storing away more than 4GB of files on a single disc. Copy smaller amounts of files in or out easily with the integrated multi-format card reader that supports Multimedia Cards (MMC), SD cards or Sony Memory sticks.

Feel safe and secure, thanks to Sophos anti-virus that comes with every MIMOS Tetra R3-412D. You can be rest assured knowing that you won't be affected by any virus that may happen to stray across your path. Maintaining your notebook

uptime is important, and MIMOS understands that. Combined with the advanced security features of the Microsoft Operating System, you'll be well protected.

Online, any time, anywhere

If you use your notebook for wireless communications as well, then you'll be glad to know that besides the Intel 802.11 a/b/g wireless network capabilities of the Tetra R3-412D, you'll also be able to communicate with other devices easily via Bluetooth. This means seamless connectivity between your notebook, personal digital assistant, or even mobile Smartphone.

Stay connected, anytime, anywhere with the MIMOS Tetra R3-412D. Stay in touch with your family, friends and business partners from anywhere in the world, making full use of VoIP technology combined with a 1.3Megapixel webcam that's located on the inner lid of your notebook.

If you're impressed so far, you'll be even more so when you finally meet the MIMOS Tetra R3-412D face to face. I know we were.
