MIMOS Gets Local IT Learn From Biggest Global Players

KUALA LUMPUR, June 29 (Bernama) -- Malaysian IT players were given a platform today to learn and get ready for the international market, thanks to efforts by MIMOS Bhd.

At the one-day Performance Unleashed Conference 2011 here, they were exposed to how global biggest players run their expertise.

The five speakers were Garanka Bjedov from Facebook, Julian Harty from Ebay, Evan Weaver from Twitter, and Simon Steward and Dounia Berrada from Google.

Most participants were from the content, web service and security industries.

MIMOS President and Chief Executive Officer Datuk Abdul Wahab Abdullah said the conference was designed for knowledge sharing on architecting, administering, developing and testing scalable, fast, efficient and reliable infrastructure and applications in Malaysia.

"Our local IT players have to get knowledge from the real best practitioners in IT services, the most renowned players from overseas," he told Bernama on the sidelines of the conference.

"This conference provides an exposure to things not written in a book. It was created by MIMOS to bring down knowledge to the local IT players," he said.
