Mimos Partners MJIT To Establish Collaborative Research Laboratory

KUALA LUMPUR, July 3 (Bernama) -- MIMOS Bhd and the Malaysia-Japan International Institute of Technology (MJIT) will jointly establish a collaborative research laboratory for advanced materials and sensor device.

Both parties will establish the laboratory in Universiti Teknologi Malaysia (UTM) to recruit more Masters and PhD students to work on projects related to MIMOS' thrust areas.

The laboratory would be funded by eScienceFund and Collaborative Research in Engineering Science and Technology (CREST) research and development grant," said Chief Operating Officer Abd Aziz Abd Kadir in a statement Wednesday.

He hoped that both technology research institutes could later become a satellite centre for various sensor development research.
