MIMOS Technology Platforms Continue To Gain Momentum

MIMOS technology platforms transferred to 10 technology recipients from various indigenous industries

The Ministry of Science Technology and Innovation (MOSTI), through its strategic agency MIMOS, recently exchanged Memorandum of Agreements with 10 technology recipients from various local industries to develop products based on MIMOS technology platforms for commercialization.

"MIMOS technology platforms developed at our labs continue to gain momentum from indigenous industries. The transfer of MIMOS technology platforms is a testament to the value-add that they can bring to technology recipients by enhancing their existing products and services,

giving them the competitive edge in the challenging market space," said Dato' Abdul Wahab Abdullah, President & Chief Executive Officer, MIMOS.

Through MOSTI's technology licensing program, MIMOS is helping to bolster the growth of

globally competitive local companies and indigenous industries through its research and development in frontier technologies. MIMOS' focus is on strategic market-driven product development and advanced technology which essentially involves the development of technology platforms for commercialization by indigenous industries.

MIMOS also signed and exchanged Memorandum of Understandings with 13 local industries to gain domain for training and exposure to MIMOS' technology platforms aimed at exploring possibilities of developing products for commercialization. MIMOS has been growing its network of dedicated partners comprising universities, research institutions and multinational companies (MNCs), both local and foreign, in its efforts to become the global trusted and preferred partner of choice in frontier technologies.

To date MIMOS has collaborations with 18 local and 22 foreign institutions; nine local and eight foreign MNCs; and five Centres of Excellence (CoEs) with universities and four CoEs with industry.
