For Immediate Release

MIMOS LOOKS TO EXPAND NETWORK OF COLLABORATION PARTNERS

MIMOS Technology Forum 2007 to attract key industry players and potential technology recipients

WHAT MIMOS Technology Forum 2007, a first for MIMOS.

WHY To attract key industry players and potential technology recipients, for licensing and commercialisation of MIMOS technologies, to join MIMOS network of collaboration partners as well as elicit market inputs, development and feedback.

HOW Through presentations on MIMOS five Technology Clusters by MIMOS World-Class Researchers and R&D Lab Directors; and independent research houses covering possible market potential and opportunities for all technology platforms being developed by MIMOS.

WHERE MIMOS, Technology Park Malaysia

WHO MIMOS World-Class Researchers and R&D Lab Directors + 200 industry players and potential technology recipients + independent research houses.

KUALA LUMPUR, 5 DECEMBER 2007 – MIMOS held its first Technology Forum officiated by Deputy Minister of Science, Technology & Innovation, Dato' Kong Cho Ha today.

The one-day forum was attended by more than 200 key industry players in telecommunications and information and communications technology (ICT) sectors from both local and multinational companies, as well as potential technology recipients for licensing and commercialization of MIMOS technologies.

MIMOS Technology Forum was designed to attract key industry players and potential technology recipients, for licensing and commercialization of MIMOS technologies, to join MIMOS network of collaboration partners as well as elicit market inputs, development and feedback.

“MIMOS Technology Forum, is another step towards realising our vision of becoming the premier applied research centre in frontier technologies,” said Dato’ Abdul Wahab Abdullah, President & CEO, MIMOS.

The initiatives and R&D direction taken by MIMOS are in alignment with MIMOS’ focus of being a leader in applied research in frontier technologies as well as the Ministry of Science, Technology and Innovation’s vision of *Knowledge Creation, Wealth Creation and Societal Well-being*.

MIMOS’ focus is on market-driven applied research in frontier technologies aimed at growing globally competitive indigenous industries through collaborations between research community and industry aimed at moving up the technology value chain.

Towards this end, MIMOS has recently signed on its first commercialization and licensing technology partner and is in the midst of identifying other technology recipients to commercialize the technology platforms developed by MIMOS.

At the MIMOS Technology Forum, MIMOS World-Class Researchers and R&D Lab Directors presented on the following topics:

- Wireless Broadband and Mobile WiMAX
- Securing Communications with and without Key-Based Encryption
- The Future of Grid Computing Applications
- Riding the Semantic Wave
- MIMOS Wireless Sensor Network in Precision Agriculture

Market Intelligence experts from independent research houses Frost & Sullivan, Gartner and IDC also shared market data in support of all the technology platforms being developed at MIMOS.

###

About MIMOS

MIMOS is Malaysia's leading applied research organisation in information & communication technologies aimed at growing globally competitive indigenous industries.

MIMOS pursues exploratory and industry-driven applied research through multi-stakeholder smart partnerships with universities, research institutes, Government and industries with a focus on frontier technologies. MIMOS' applied research areas, based on real-world trends, are cyber space security, encryption systems, grid computing & multi-service networks, wireless broadband, MEMS/NEMS systems, advanced informatics, knowledge technology and micro energy systems.

MIMOS is the recipient of Frost & Sullivan's Growth Excellence Award 2007 for Industry Innovation & Advancement (Precision Agriculture) for its application and development of Micro Electro Mechanical System (MEMS) in the field of precision agriculture.
