Tutor iLMS is an intelligent studying software which is capable of providing effective learning methods for students based on their profiles and true personalities.

Tutor iLMS is easy to use because the latest multimedia elements make it very user-friendly.

In keeping with its tagline, 'The Future of Learning', *Tutor iLMS* provides an organised learning process where each student is given a psychometric test to determine his/her various Multiple Intelligences and Learning Styles.

The student is then able to select the Learning Object

for any subject which he/she feels is suitable for his/her level of understanding and learning. Each Learning Object is presented in interesting formats like texts and graphics, multimedia, virtual reality as well as augmented reality.

Tan Sri Mohamed Hashim Ahmad Makaruddin, Chief Executive Officer, *Utusan Melayu (Malaysia) Berhad*, in his opening address said that by using *Tutor iLMS*, students would be able to widen their learning techniques not only through online-notes and questions but also gain a

whole new learning experience.

Meanwhile, President and Chief Executive Officer, *MIMOS Berhad*, Dato' Abdul Wahab Abdullah said, "This collaboration with *MARA* and *Perfisio Solutions Sdn Bhd* is yet another effort by *MIMOS* to empower local companies via an advanced technological platform to showcase their products at the global market."

Tutor iLMS comes complete with the *iLMS* Performance Monitoring System which is highly beneficial to students, parents, principals, teachers and even for use at the state and federal education levels.
